## A Division of Metals USA

### Full Line Metals Company

ISO 9001 & AS 9100 Certified

THE ALUMINUM BRAZING SPECIALISTS

# Lynch Metals/Metals USA Overview

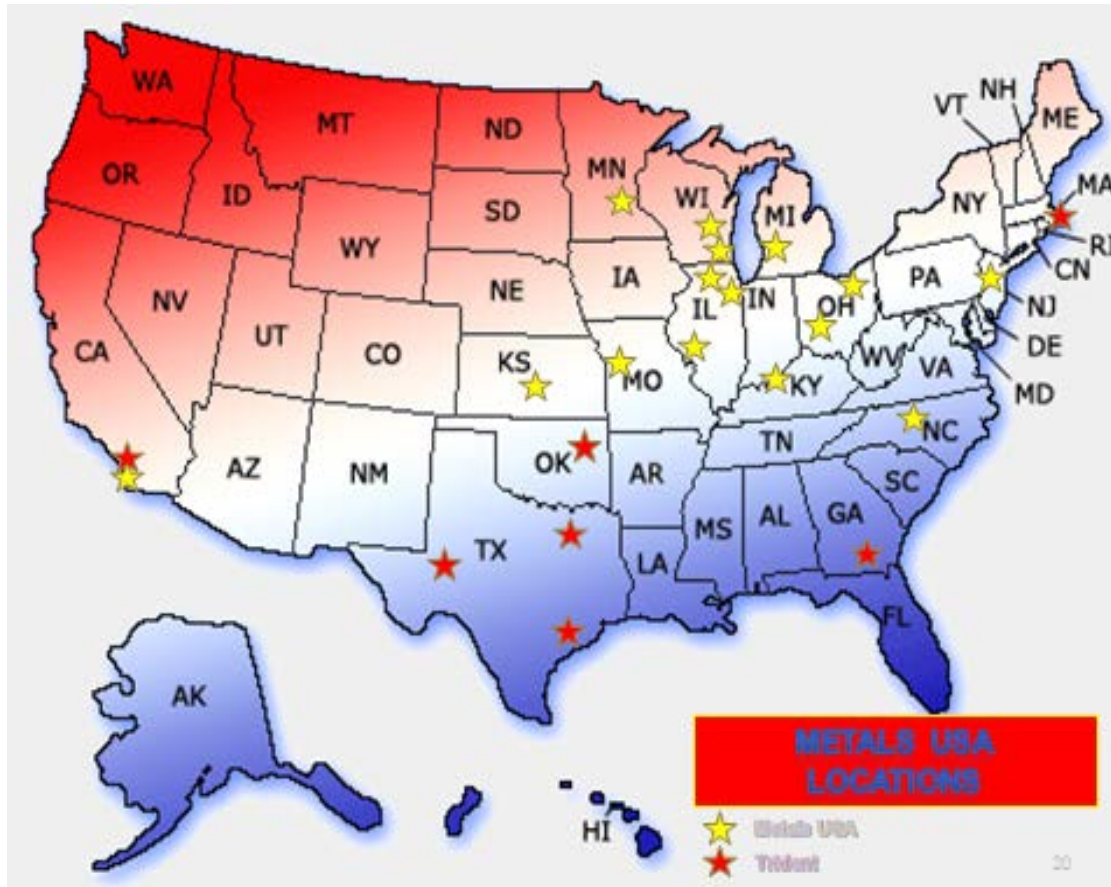

*Our business focus is on a select group of markets and then provide a wide range of products, services, and expertise in metals specifically targeted to providing these customers with outstanding value. We can support your material needs with virtually all non-ferrous products.*

## Major Markets:

- ❖ Automotive
- ❖ Machinery & Equipment
- ❖ Architectural
- ❖ Energy
- ❖ Oil and Gas
- ❖ Aerospace and Defense
- ❖ Oil Cooled Heat Exchangers
- ❖ Electronics & Computer Equipment
- ❖ Signage

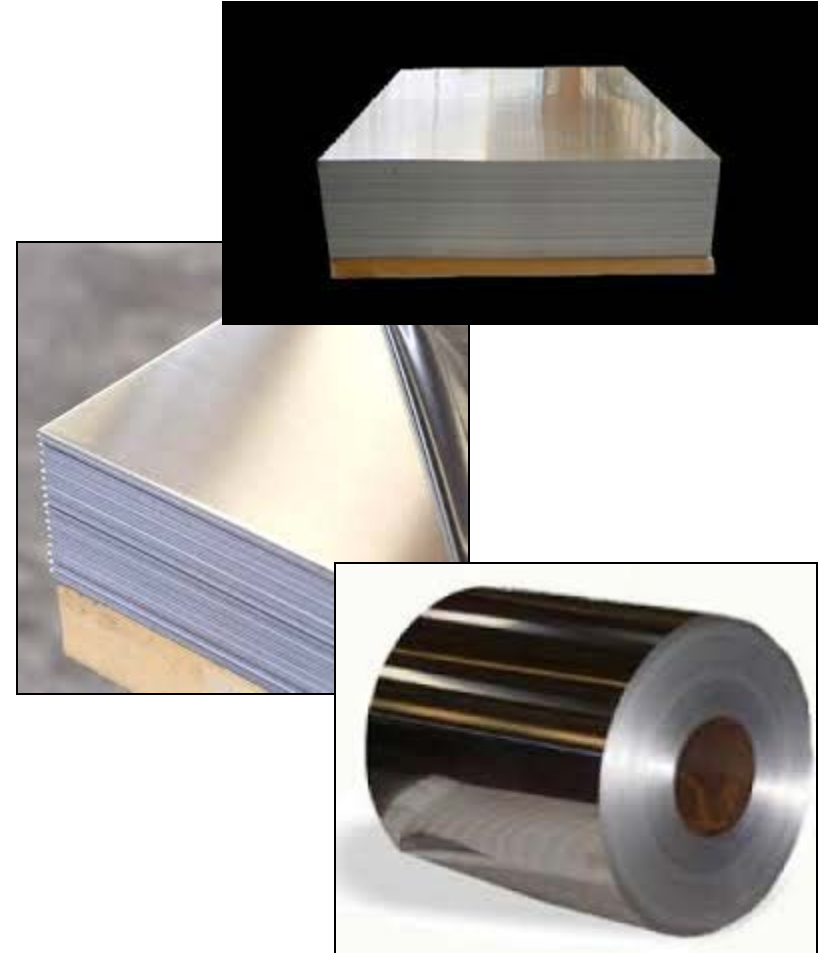

# Strategic Value Nationwide

- ❖ Metals USA – Lynch Metals: 22 strategic locations nationwide
- ❖ Ability to serve your needs for just in time delivery of critical materials
- ❖ Estimated annual revenue \$2.1 billion dollars
- ❖ Strategic partnerships with leading producers of aluminum, stainless flat rolled & aluminum extruded products
- ❖ Parent Company: Reliance Steel & Aluminum 11.0 billion dollar metals company

# Sheet, Coil, Foil Products

- ❖ **Brazing Sheet:**
  - Aluminum, stainless, nickel
  - Gages: .002" to .024"
- ❖ **Foil:**
  - Thickness range: .001" to .0059"
  - Widths: .125" to 60"
  - Alloys: 3003; 6061; 6951; 4047; 4004
  - Tempers: O, H1; H2; H3
- ❖ **Coil:**
  - Thickness range: .006" to .125"
  - Widths: .125" to 60"
  - Alloys: 3003; 6061; 6951; #8; #12; #13; #14
  - Tempers: O, H1; H2; H3
- ❖ **Sheet:**
  - Thickness range: .012" to .250"
  - Widths: 36" X 72"; 48" X 144"
  - Alloys: #21; #22; #12; #8; #13; #14; Multiclad
  - Tempers: O, H1; H2; H3
- ❖ **Stainless & Nickel Alloys**

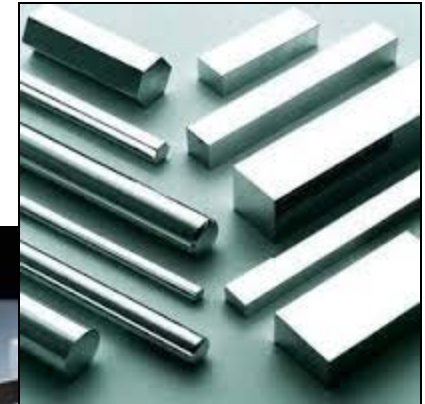

# Flat Rolled Product Processing

- ❖ **Slitting:** Gauges from .001 to .125 in width tolerances as close as +/- .002. Channel Letter coil with PVC coating, individually boxed
- ❖ **Sheeting:** Tension leveled coil from .020 to .249 cut to your exact length.
- ❖ **Blanking:** Custom cut blanks to reduce your in-house labor and scrap. Rounded corners and holes available
- ❖ **Coil offered as:** mill finish; painted; anodized; Coilzak; Everbrite; Hammertone
- ❖ **Masking:** Adhesive PVC masking to protect critical sheet and coil surfaces. (2 side masking available)
- ❖ **Stocking:** Blanket order stocking programs for just-in-time inventory management

# Extrusion Product Lines

- ❖ Wide range of circle size 1" to 30"
- ❖ Wt./ft. from 1/4 to 100 lbs.
- ❖ Primary alloys:
  - 6061
  - 6063
  - 6005
  - 6101/1350/1100
  - 6082
  - Other alloys in: 1xxx; 2xxx; 3xxx & 7xxx series
- ❖ Standard & specialty tempers: Txxx; O; F
- ❖ Product forms:
  - Solids, semi-hollow, hollow shapes
    - Standard Industrial Sections
    - Custom extruded shapes
  - Seamless & structural tube and pipe
  - Rod and bar

***Our focus is providing customers with custom engineered products***

## Extrusion Fabrication & Finishing Capabilities

### Lynch Metals offers a wide range of finishes

- ❖ Powder Coating
- ❖ Clear Anodize
- ❖ Colored Anodize
- ❖ Two Step & Acid Etch Anodize
- ❖ Hardcoat Anodized
- ❖ Brite Dip Anodize
- ❖ Electrostatic paint
- ❖ Kynar
- ❖ Tumbling
- ❖ Bead blasting
- ❖ Brushing
- ❖ Polishing

*Meet AAMA Specifications*

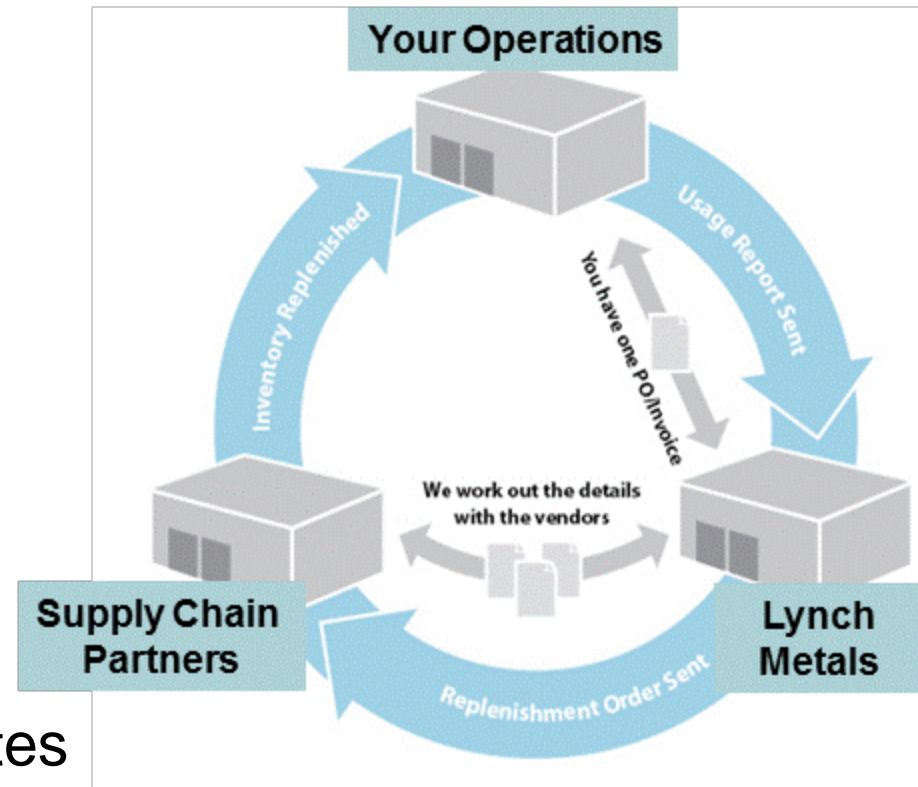

### We offer a wide range of value added fabrication services

- ❖ Punching
- ❖ Drilling
- ❖ Tapping
- ❖ Notching
- ❖ Piercing
- ❖ Reaming
- ❖ Welding
- ❖ Bending
- ❖ Deburring
- ❖ CNC Machining

## MAP Program & VMI

- Stocking programs available by product line
- Metalware (MAP) program to manage your inventory by:
  - Inventory turns required
  - Reorder point
  - Production lead time
  - Usage or demand forecast
  - Management and tracking by SKU
- Inventory Reporting:
  - We can provide regular updates of on hand/on order/open quantities, etc.

# Metals USA/Lynch Metals Value

- Financially strong public company ownership with resources available to invest new equipment and service
- With 22 flat rolled processing locations in the US, we have the potential to respond to customers' needs nationwide
- Wide range of alloys, product forms and finishing services
- Stocking and processing: slit coil; cut to length sheet; custom and standard extrusions
- Customized packaging and labeling
- Just in time deliveries- we can ship material within 2 to 3 working days or within 24 hours in an emergency

**Thank you for your business and future consideration
